## DISPENSERS- DD4      DE4 DA3      DX

CECOR's mobile dispensers, whether powered by battery, air, electric, or dispensed by gravity, are designed for precision and efficiency in industrial fluid management.

A dispenser will help reduce waste and operator fatigue.

CECOR mobile dispensers are ideal for topping off sumps or refilling machine tools with fresh or recycled fluid.

- Dispense up to 15-25 gpm, reducing operator fatigue and enhancing efficiency.
- Available in customizable sizes (65 to 200 gallons) to suit various industrial needs.
- Excellent in aiding in fluid management
- Pair with a CECOR mixer for faster filling and easy relocation, optimizing your workflow.
- Proudly designed and manufactured in the U.S.A
